Education

Babcock University / B.Sc Software Engineering

JANUARY 2021 - JULY 2024, OGUN STATE, NIGERIA

- Current CGPA: 4.57 (5.0 Scale)

Programming Coursework: Operating Systems, Algorithms & Data Structures, SQL fundamentals, Object Oriented Software Development

De World International Secondary School/ West African Senior School Certificate (WAEC)

SEPTEMBER 2014 - JULY 2020, RIVERS STATE, NIGERIA

Experience

Propsavvy / Software Developer

DECEMBER 2021 - PRESENT, LONDON, ENGLAND

- Built a web based map for visualizing housing information, increasing customer engagement as a result.
- Reduced map load time by 50% by redesigning backend APIs and map rendering algorithms.
- Designed a robust search engine, allowing customers to search by generic location names or jump right into specific postal sectors.
- Increased fault tolerance by designing effective error handling functions, verified through extensive stress testing done by the team.

Utilized knowledge in Node.js, PostgreSQL, Mapbox gl, Git, HTML5, CSS, JavaScript, debugged using Chrome Developer Tools

Babcock University / Software Developer

JULY 2021 - PRESENT, OGUN STATE, NIGERIA

- Increased student's willingness to take therapy by designing and building a web based therapy platform.
- Built an instant messaging service utilizing web sockets for low latency and persisting data on the database.
- Transformed the feedback generation process for the university by building an intuitive web platform for gathering, analyzing and visualizing feedback.

Utilized knowledge in Node.js, MongoDB, Google Cloud Platform, Angular, TypeScript, Web Sockets, Git, HTML5, CSS, JavaScript

Personal Projects

Personal Website: <https://alfredonuada.herokuapp.com> (for additional information, links and other projects)

Real Estate B2C platform

Utilized: Angular, TypeScript, Node.js, MongoDB, Heroku, Git, HTML5, CSS

AI-powered CBT Preparation Platform

Utilized: Firebase, OpenAI, JavaScript, HTML5, CSS

Music Streaming Web Application

Utilized: PHP, AJAX, MySQL, HTML5, CSS, JavaScript

Skills

(proficient): JavaScript, Node.js, Python, Git, MongoDB, Angular, HTML5, CSS3

(familiar): Java, PHP, SQL, Flask, TypeScript
